

Directions for "Quilt as You Go" modifications for the Jordan Fabric Friendship Table Runner

Backing and Batting 48" x 20"

Cut a 6 ½ inch Square (or make a 9 patch-adjust squares as needed)

Cut 20 2 ½ inch by 6 ½ inch strips

Cut 10 2 ½ inch x 2 ½ inch squares

This is a good time to lay the strips how you would like them to be when finished.

Sew 10, 2 ½ inch squares onto 10, 6 ½ strips

1. Layer batting on top of backing. Baste using favorite method. Basting Spray works well.
2. Find the center and mark a line both horizontally and vertically on the batting. This will be your placement line for the center block and also the strips.

3. Layer the center square in the center, so that all four corners line up with the drawn lines on the batting. Pin. Layer the 6x2 ½ rectangle fabric on two sides of the square. Sew with a ¼ inch seam allowance. When starting and starting back stitch. Press away from center.

4. Now layer the 6 ½ strip with the 2 ½ inch strip on the two sides of the square (right sides together) Keep it on the far corners. Sew with a ¼ inch seam.

5. Repeat the process, nesting seams, with the rest of the strips. Use the lines drawn on the batting. Try to end stitching ¼ inch before end of strip. It will make the quilting on the back look nicer.

6. Layer the border strips on each side and pin. Try to layer the raw edge of the strip with the inner corners of the rectangles. Sew the strips on each sides of the braid and cut off the excess strips, press. - use ¼" seam

7. Layer the border strips on opposite short sides, sew, cut and press. Repeat for the other short side.

8. Add another border if you would like.
9. Cut off the excess backing and batting and bind.
